tained as one of the supervisors of Internal Revenue, which, though once or twice thwarted, he was able to put into execution during his visit to the city last week, is al-ready making dire trouble among the household troops and camp followers. To save Mc Donald, it became necessary to dismiss Kenton R. Cobb, of North Carolina, who has a brother, which brother is no other than the Congress from the second district. These two Radicals, so lovely in their lives, do not mean in their deaths to be divided; and therefore Clinton, with John Pool as his aid, had started hot-foot for this city and complish that result. Let the will of the Long Branch to redress the wrong done to people be obeyed without regard to the perbrother. This plan is to secure the sonal preferences of delegates or the aspir-ations of individuals. Whatever is done scalp of Delano's man Perry, who was assigned the district of North Carolina in which to carry on his carpet bag schemes, and to restore the plunder to the truly royal and faithful Cobb. Perry has just been detailed to work up the Radical cause in Maine, according to his recent public statement; so that there could not be much for the supervisors to do except to look after

CHICAGO.

Great Excitement in Commercial Cir-CDICAGO, Aug. 20.—The entire commercial community is in a whirl of excitement to-day over the breaking of the great corner in wheat, and the consequent collaps: of managers and their adherents. What black Friday was to the gold and stock market in New York, to-day is to the produce exchange of Chicago. The decline in the price of wheat, which commenced yesterday morning and continued steadily throughout the day, as before stated in these dispatches, was only more marked throughout the day, as before stated in these dispatches, was only more marked this morning, and rapidly culminated in a perfect panic, prices receding to \$1.10 for cash or sellers for August, and \$1.08 for September. This crash in prices brought with it the managers of the "corner" and reports that this one and that who had been following their land had failed; that these reports are true

lead had falled; that these reports are true so far as a great many are concerned is behours when it can be ascertained whose checks have been thrown out, it cannot be definitely known how many are gone nor exactly who they are; as matters stand at present there is intense feeling of anxiety on the partof almost every merchant, many Tho were not in any way connected with the clique who have been architects of the corner there will be more or less losses, having to stand between them and their customers, whose grain they have sold at high figures, and the bulls who were their purchasers and who are now unable to put up. The general feeling is one of the greatest uncertainty, to some extent distrust, simply because at present it is impossible to tell where men stand.

Men who have been on the board of trade for many years, say they have never seen such a day as to-day. No one can tell as More About the "Corner" in Wheat. BHICAGO, Aug. 20 .- The crush of the classes of citizens who have little interest in the doings of bulls and bears. The subject is canvassed eagerly. The fact that houses have received orders to close, and the break has carried with it a greater or not to open until permitted by the authoriless number of commission men and opera-tors in grain, and crippled others; that men who were yesterday many thou-sands ahead of the deal are to-day bankrupt, invests matter with an interest which extends over the entire grain dealers in the country have invested their money against the corner, selling largely of wheat at the advanced price it reached, and are consequently, by failures of the Bull clique, large losers. So far as the positive failures among merchants here are concerned, it is still too soon to state with certainty who are really broken. That firm of J. B. Lyon & Co., were the originators and principal managers of the corner, have failed, there app a's to be no doubt. The names of some twenty other individuals and firms are reported unable to meet their obligations, but many of these it is

publishing the list. At least parties by twelve or fifteen firms have refused or been unable to put up margins, or so far to settle the differences is unquestionably true, but matters are still in such confusion that it is difficult to as certain positively who these parties are A prominent operator who has been dur-ing the greater part of the time since Cor-ner was established, a constant seller of wheat, on yesterday evening called for margins to the amount of 100,000 dollars from parties to whom he had sold the; total amount put up on this call was only 2,500 dollars, the losses of this operator will aggregate not less than 100,000 dollars, and this, notwithstanding the fact that he was on the other side from the managers of the corner, and but for their failure to meet their obligations, would have been largely ahead. There is exceedingly bitter feeling among many of the members of the Board of Trade at the manner in which the ring have conducted their business, as it is alleged that they drew many unsuspect. ing brokers to financial ruin by inducing

them to buy grain for them, representing,

hence an injustice might be done to solvent

even after prices had 25 cents per bushel, that they were still able and determined to carry the corner through the month, and that they had allowed prices to drop purposely. These brokers are now left in the gap, and some, at least, of them will be crushed. A leading and thoroughly reliable merchant asserts that one of the leading members of the ring came to him this morning and assured him that they had not failed, nor likely to, and wanted him to buy 100,000 bushels of wheat for them today. He at first consented but immediately reconsidered the matter and refused, thereby saving himself \$10,000. Among the parties who are positively stated to have failed is Hugh Maber, whose recent irregularities in connection with the Coma Elevator have been the subject of much commany white votes as possible. The on open board, showed consider-Democrats are going to support on open board, showed consider-Greeley in a mass, believing this able firmness, and quite. a number of buyers made their appearance. Fighting was kept up by the rioters in various quarters of the city with stones, bludgeons and firearms. The Magistrates began yesterday to swear in special constables. A proclama-tion has been issued by the Mayor authorizing the troops holding the streets to fire upon all riotous assemblages offering re istance. All the stores are closed, and

NEW YORK, Aug. 20 .- A special dispatch from London says: The riots in Belfast continue with unabated fury and the city is at the mercy of a blood-thirsty mob. Martial law has been declared fearing a repetition of the terrible scenes of 66, all places of business were closed at noon to-day. A regular panic prevails and many respectable people have fled the city.

Orangemen in bodies of three and four hundred issue from their headquarters in Sandy Row and rush through the principal streets like demons, firing in all directions. It is apprehended they will attempt to demolish several Roman Catholic institutions. and large reinforcements of constabulary have accordingly surrounded them to resist an attack. Several regiments, including detachments from the Royal barracks in Dublin, were drawn up to-day in High street, Donnegal street and in the vicinity of Linen Hall, ready to charge the rioters.

Dragoons and mounted Constabulary patrolled the city last night, but the shooting was as brisk as ever, and in many instances innocent victims were killed. Bitter outeries are made against the city authorities, who, just as during the riots of 1866, allowed the fiends to pelt the troops with brickbats, wreck churches, plllage stores, and perpetrate atrocious murdere before they gave the word of command.

Orangemen are mostly favored, although they have been charged. The mode of warfare is cowardly in the extreme, and people walking quietly along are shot down like dogs. At this writing the hospital is Great Patrick street is filled with the wounded and dying, and the screams of the sufferers as they are taken along the streets, are heartrending. Several women have been shot.

The troops can do nothing without the sanction of the Mayor, who, owing to the great indignation of the citizens, has at ength been compelled to order the military to engage with the rioters.

About a dozen persons have been shot at

the so-called Boyne Bridge, near the rail-Orangemen made an effigy of O'Connell, ied a rope around its neck, plunged it into the water, and subsequently placed it in a coffin, and after mimicing the last rites the Roman Catholic Church, burst open a Catholic cemetery at Friar's Bush and burned it there. The ringleader, a man named James Connell, was next day shot dead by the police while leading a gang of rioters to burn the

Roman Catholic Orphan Asylum. Orangemen detest the name of Daniel O'Connell, owing to his having won Catholic emancipation in 1829, and it was be-cause the Roman Catholics were celebrating that victory that the Orangemen again amenced the attack. The scene since Thursday last has been terrible.

It was at first thought that order would be restored in a day or two, but the partiality and bad management of the authorities have lead to the present dreadful state

Many private houses have been torn down or burned. Worked up to a fit of desperation the Roman Catholics from the district known as Pound Livey and Heroules street, have appeared in the streets to resist the ferocious assaults of the Orangehave made most appalling threats. Respectable citizens are seized with terror and are trembling in their houses with fear.

The ship carpenters, who are mostly Orangemen, have joined the rioters with their formidable weapons. The opposing parties had several engagements last night and this morning, and several men were killed. If the authorities prevent the milltary from clearing the streets and shooting down the cities, the city will be gutted. As a last resource a quantity of ammunition and rifles have been distributed among a number of deputy constables who will as-

WONDERFUL INVENTION OF A CAL-IFORNIA RLACKSMITH. From the Sacramento Record, July 22, W. M. Bernard, a blacksmith, has inven-

are closely upon them. Every word that is uttered should be intended to promote harmony. If the spirit of discord appear let it be at once banished. Let the rememorance of the scenes that were enacted in the Stokes-Senter Convention be as a warning voice to those who will assemble to-day. Let it be remembered that the disruption of the Radical party and its defeat in this State was the consequence of that stormy assemblage. Every delegate should feel that he has a high duty to perform, that the great objective point of this canvass is the defeat of Grant. Let each work so as best to ac-

THE skeleton of a giant sea spider is now to be seen in the shop of a chemist in Dresden. It is in an exceedingly good state of presevetion. The body, which is a quarter of a yard long, rests upon eight long legs, which, when stretched out, cover, with the body, the space of a yard. Crablike claws, or long arms with joints, rise above the head and give to the whole a clearly appearance.

In the three counties contain the largest number of white Radicals, Mobile, Madison and Dallas, they are a goodly number of Liberal Republicans and Radicals, who have nominated a formidable State ticket. Not one of their nominees for State officers is either a carpet-bagger or negro. Perfectly sure of the carpet-bag and negro vote, they have selected men of long residence in the State and moderate views in order to catch as many white votes as possible.
